This historic, world-famous village is set on plateau in the heart of the Peak District National Park, surrounded by the awe-inspiring granite outcrops that the peak district is known for whilst coupled with good road links to neighbouring towns and cities including Buxton, Ashbourne, Sheffield and Manchester. With a wealth of local amenities on offer, including public houses, restaurants, cafés and shops, the village bustles all year round with an emphasis on community spirit and is an ideal location for those seeking a plethora of accessible outdoor pursuits. Finished in natural Sandstone and completed with a landscape garden, available parking with garage, and an air source heat pump.

The Government's drive for greater sustainability and efficiency in the construction sector has encouraged alternative methods of building. Building with ICFs has huge advantages in energy saving, fire safety, thermal efficiency and acoustic performance. ICF systems are A+ rated according to the BRE Green Guide to specification assessment scheme, making it amongst the most sustainable and environmentally responsible building systems available today, Amos Group are proud to present this innovative system at Peakland Grange. This contemporary home has been built to a progressive layout designed to support modern living with every convenience and finished to a very impressive standard worthy of its surroundings.
